

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[printingApplication]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
[Machine asks user ("how much copies do you want want to print")]	[User enters a number Machine processes it and check which range the number falls in between: Copies <99 Price per copy: \$0.30 Copies <499 Price per copy: \$0.28 Copies <749 Price per copy: \$0.27 Copies<1000 Price per copy:\$0.26 Copies > 1000 Price per copy:\$0.25 Eg. user picks 339	[Machine displays: what the price will be and the total price Eg. it will be \$0.28 per copy and the total price will be \$95.0]

	<p>Processes which range it falls in (499)</p> <p>Does the math for the total amount 339×0.28</p>
