Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[Change Counter]	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
Data type: Int [User will input how much change they have in cents as an integer eg.15]	[The program will divide the value by 25 to get the quarters, the reminder will be divided by 10 for dimes, the reminder for that will be divided by 5 for nickels and the remainder of nickels will be divided by 1 for pennies eg.　　　15/25=0R15 　　　　　15/10=1R5 　　　　　 5/5=1R0 　　　　　 0/1=0]	[Machine will input the amount of change the user has Eg. "the amount of quarters you have is 0 The amount of dimes you have is 1 The amount of nickels you have is 1 The amount of pennies you have is 0"]
